

Features

Pay4SchoolStuff is an innovative online management solution for public and private school and affiliated organization (PTA/PTO's, Booster Clubs, etc.) parents and staff. It is designed to be easy to use and convenient in order to quickly and easily set up an account, log in and pay for items, and have full recordkeeping and report capability. The unique feature of our system is that it allows complete customization of your payment menu, AND allows one or several user groups from the same school to set up any payment items and, if desired, receive their funds separately, while parents only see *one* menu listing all of the groups' payment items. Some of the things you can do on the site are:

- Collect information from parents with the use of **Zero-Cost items** for anything from volunteering opportunities to survey responses to where to deliver mulch
- Eliminate the use of forms and paper through the use of the **Form Creator or Document Upload**
- Access a school menu or item quickly through a **URL or the Marketplace**
- Process payments quickly with **POS swipe readers**
- Limit the Inventory of each apparel item, class roster, tickets, etc. with the **Inventory Controls**
- Allow monthly billing for any item with the **Recurring Billing Feature**
- Set up accounts for all parents with the **Mass Parent Account Upload** feature
- Create online apparel stores with the **Image Upload** feature to display spirit wear and other items
- Adjust the distribution of transaction fees for any payment item using **Price Controls**
- **Customize all Payment Names and Items** to tailor the site to your organization or school
- **Generate reports** quickly and print or save to Excel for any item, parent, student, grade, etc., and **set reports to be sent automatically**
- Create your own options for parents to choose from with the **Choices** feature
- Control when any item is available for payment with easy to use **Date Controls**
- E-mail any or all parents with the **Internal Communication Function**
- **Create a membership directory** in minutes by generating a report of all account information
- Allow parents to make **Open Amount Donations** by filling in their own dollar amount

Fees

The basic processing cost for payment items is 2.99% + 26 cents per item. American Express, Visa, MC and Discover are accepted. How you structure this cost is your decision. You can pass all, some or none of the costs to parents for any individual item. So adding the total fee onto a \$10.00 item puts the total parent cost at \$10.56, or if your school were to absorb the cost of this \$10 item, your net would be \$9.44. In addition, there is no fee whatsoever to collect zero-cost information or non-fee registrations of any type. Deposits of all transactions are made to your bank account *electronically* every week. Depending upon which version of the website you choose (\$0 for Basic), there may be a one-time start-up fee of \$129 (Plus) or \$249 (Pro).

Additional Information:

If you would like to gain a better understanding of the operation of the system, you can open a Trial account in "Take a Test Drive." Access instructions on using features and functions in the Administrator How to Manual under "Admin Resources" in the Footer on the Landing Page. There is also an online tour and Quick Start Instructions for parents. In addition, we have made a copy of our brochure, press releases, comparisons with other products, and other information to help you learn more and to get the word out to your community about using the site,
